

new from gSource

gSilicone Punch

Get a sure grip with our new gSilicone Punch.

- Biocompatible silicone coated handles help to prevent slippage and provide a secure grip.
- Made from German stainless steel with silicone coated handles.
- Colored handles provide easy bite size recognition.
- Available in five standard colors according to bite size (brown, blue, lavender, turquoise, green) or custom colors of your choice.
- Silicone has excellent resistance to alkaline, saline and acidic solutions.
- Non-fading vibrant colors withstand repeated autoclaving.
- Forward bite style available from stock.

Custom options:

- handle color
 - shaft length
 - up or down bite style
 - with or without your logo
- Quality verified and guaranteed by gSource.
